Location: Cleveland, OH

Price: $1,399.99

Short Description

2014–2015 Mercedes-Benz ML Class with factory Push-to-Start remote start — working spare key required; ignition-switch modification required. Use your factory Panic button or lock-unlock-lock sequence. Programmable heated-seat activation and rear-defroster activation at 32°F outside temperature, plus steering-wheel programming. Professional installation in Cleveland.

Description

MERCEDES-BENZ ML CLASS • 2014–2015

Working spare key required. Ignition-switch modification required. Professionally installed in Cleveland, Ohio.

Remote start your 2014–2015 Mercedes-Benz ML Class with factory KeylessGo / Push-to-Start before you step outside. Warm the cabin on cold mornings or begin cooling before a summer drive, using the factory remote you already carry.

Key & Ignition-Switch Requirements

A working spare factory key must be given up and dedicated to this installation. Ignition-switch modification is also required and is included in the installed package.

FACTORY FOB CONTROL

Panic button or lock-unlock-lock activation, configured at installation.

AUTOMATIC COMFORT

Compatible factory heated seats respond to a programmable outside-temperature threshold; the rear defroster activates at 32°F outside temperature.

STEERING-WHEEL PROGRAMMING

Adjust supported run time, number of starts, heated-seat threshold and light flashes.

Built Around Your Mercedes-Benz

- **Factory-key convenience:** Start and stop through the configured factory-fob command.
- **Temperature-based comfort:** Automatically activate compatible factory heated seats using a programmable outside-temperature threshold. The rear defroster activates at 32°F outside temperature.
- **Personalized operation:** User-friendly programming through the steering-wheel controls for run time, number of starts, heated-seat temperature threshold and light flashes.
- **Factory integration:** Vehicle-specific harnesses integrate with the original electronics without cutting factory wires.
- **Directed / Viper SmartStart support:** Optional VSM550 Pro interface upgrade available for compatible smartphone commands, vehicle status and GPS features according to installed equipment and service plan.
- **Purpose-built hardware and firmware:** Vehicle-specific integration, professionally programmed for your ML Class.

Comfort features require the corresponding factory equipment. Available settings depend on the vehicle configuration. Factory-fob range depends on the original remote and surroundings. Smartphone control requires active cellular service, compatible coverage at

the vehicle and internet access on the phone.

$1,399.99 Installed

Includes SKS-ML-166-14-15-PTS, required harnesses, programming and professional installation. A working spare factory key is required. Required ignition-switch modification is included. Add VSM550 Pro Directed / Viper SmartStart smartphone control for $200. Cellular service is separate. Additional handheld remotes are not included.

Frequently Asked Questions

Do I have to give up a spare key?

Yes. A working spare factory key must be given up and dedicated to this installation. Required ignition-switch modification is included in the installed package.

How do I start it with my factory remote?

Use the factory Panic button or the lock-unlock-lock sequence, according to the configuration demonstrated at installation. Factory-remote range remains dependent on the original fob and surroundings.

Can it turn on the heated seats and rear defroster?

Yes. Compatible factory heated seats activate using a programmable outside-temperature threshold. The rear defroster activates at 32°F outside temperature. The vehicle must have the corresponding factory equipment.

Can I adjust the remote-start settings?

Yes. Supported settings can be programmed through the steering-wheel controls, including run time, number of starts, heated-seat temperature threshold and light flashes. We demonstrate these controls at installation.

What does professional installation include?

The remote-start system, required vehicle-specific harnesses, ignition-switch modification, programming and professional installation at Access 1 Alarm & Audio in Cleveland, Ohio. A working spare factory key must be supplied and given up for the installation.

What warranty is included?

The system carries a 5-year warranty. The VSM550 Pro interface, when supplied, carries a 1-year warranty. Installation labor is covered for as long as the original purchaser owns the vehicle. Existing factory keys are not newly supplied remotes.

Can I control my ML Class from my phone?

Yes, with the optional $200 VSM550 Pro Directed / Viper SmartStart upgrade. Cellular service is separate. Available phone commands, GPS location and alerts depend on the installed equipment, coverage and selected plan.

Confirm your exact vehicle and factory equipment, then schedule your installation.
