Short Description

JBL BassPro 12 Powered 12" Ported Subwoofer

Description

JBL BassPro 12 Powered 12" Ported Subwoofer

The JBL® BassPro12 powered subwoofer is the easy way to add high-output, low-distortion bass to a car audio system. Its Slipstream port design delivers deep, bottom-end bass while minimizing port noise. It also features improved motor-structure venting for thermal protection, a progressive spider to ensure superior mechanical reliability and an amplifier that delivers maximum power and flexibility. And with the system's remote level control, which lets you adjust bass level while driving, the only time you'll need to stop is for gas.

FEATURES

- Powered subwoofer enclosure
- 12" Subwoofer with polypropylene cone
- Built-in 150 watt RMS amplifier (450 watts max)

- Bass knob included
- Built in crossover
- Hi-level or low-level inputs
- 1-Year limited warranty against manufacturing defects
