Programming Instructions
Programming Your Remote Control

Note: Make sure the system is disarmed, and the Control Center LED is completely OFF for a minimum of 60-seconds prior to beginning the remote pairing process.

Preparing the system

1. Driver's door OPEN
2. Turn the ignition ON.
3. Within 10-seconds, press and release once, then press and hold the system’s Control Center (The Windshield Mounted Antenna)Valet button. The status LED begins flashing and the siren/horn (if connected) sounds to confirm the system is ready for pairing.
4. Release the Control Center's Valet button.

Pairing the remote control

1. Press and hold the UNLOCK button (approximately 8-seconds) until the remote enters pairing mode and emits a long beep.
2. Release the UNLOCK button.
3. Within 2 seconds, Press and release UNLOCK once more.
4. After a short delay, the horn/siren sounds (if connected) and the Parking Lights

flash to confirm the system has paired with the remote control.

5. Turn the ignition OFF and WAIT approximately 60 seconds for the remote control to exit pairing mode.

Note: 2-Way remotes will emit tones and provide visual confirmation that the remote has successfully paired with the system. 1-Way remotes do not offer pairing confirmation.
