- Nominal Impedance: 2?
- Frequency Response: 25Hz - 215Hz

Illuminate Your Audio

Color and sound collide to bring you an intentionally crafted 10-inch wedge style subwoofer enclosure, designed for optimal bass performance and vehicle fitment, and an integrated RGB lighting system that's multi-link capable for single, dual, and even quad-enclosure installations.

Lighting Link Control with iLX-W670

AlpineManage the integrated RGBW trim bars effortlessly through the intuitive Lighting Link control screen on the iLX-W670 Receiver. With a simple touch, users can easily change the ambiance, adjust colors, and change modes on the PrismaLink™ enclosures. Whether it's setting the perfect vibe for a late-night drive or enhancing the atmosphere of a weekend getaway, the intuitive interface empowers users to tailor their lighting experience with precision and ease.

Multi-Link Lighting

The PrismaLink™ Subwoofer Enclosures feature a pre-wired, RGB light integration in the

enclosure trim bars that's able to connect across the optional subwoofer linking brackets (KTX-LK10, sold separately) for a brilliant, uninterrupted display of color that's controlled by an included IR remote or the iLX-W670 Digital Multimedia Display with touchscreen Lighting Link control.

S-Series Performance

PrismaLink™ Enclosures come preloaded with Alpine's next-generation S-Series Subwoofers, which feature a lightweight but rigid cone material and Alpine Proprietary High-Amplitude Multi-Roll (HAMR) surround that contribute to enhanced "punch" and accurate bass performance.
