- Speaker Input: Up to 30V

Optimize Your Audio

Unleash the hidden potential of any sound system with the Alpine OPTIM™6. This 6-channel sound processor with automatic sound tuning capabilities and Hi-Res Audio playback (96kHz/24Bit) is the ultimate tool to effortlessly measure, correct, and fine-tune your audio in minutes.

Simplifying Sound Tuning

The Alpine OPTIM™6 removes all the complexities of tuning a sound system by providing a simple, self-guided process via the OPTIM IOS App (iPhone/iPad) or PC App with the KTX-CSP1 External Mic kit (sold separately) to quickly and precisely measure your vehicle's interior. This innovative Auto-EQ software analyzes your vehicle's acoustic environment and intelligently adjusts to optimize the audio output for your vehicle and provide the best possible listening experience.

Personalize Your Listening Experience

Tune your system in real-time using tuning tools like crossover adjustments and time correction to create an experience that's tailored to your ideal listening position or music genre preference. Use any of the six included presets to save your favorite tuning adjustments and access on the fly using the included OPTIM™6 controller.
