Short Description

Excalibur 1417 Replacement — 1415 Ships

Excalibur 1417 discontinued — genuine Excalibur 1415 replacement supplied. This listing ships **one brand-new 1415 remote with two CR2016 batteries included.** FCC ID: ELVNTQE. For the compatible Excalibur systems listed below. **\$44.99 — replacement in stock.** You will receive the 1415, not the discontinued 1417. Programming required.

Description

Excalibur 1417 Replacement Remote Control — Genuine Excalibur 1415

Replace your discontinued **Excalibur 1417** with a brand-new, genuine **Excalibur 1415 replacement remote control.** This listing remains available so customers searching for the 1417 can purchase its compatible replacement.

\$44.99 — REPLACEMENT IN STOCK Brand-New Genuine
Excalibur 1415 Ships

Excalibur 1417 Discontinued — Excalibur 1415 Ships Instead

The original **Excalibur 1417** has been discontinued. When you order this listing, you receive one brand-new, genuine **Excalibur 1415** remote control, not a **1417**. The in-stock status refers to the available 1415 replacement.

Included: One Excalibur 1415 remote and **two CR2016 batteries**. Programming is required.

Excalibur 1417 / 1415 System Compatibility

The genuine Excalibur 1415 is supplied as the replacement for the discontinued 1417 on compatible installations. Confirm the installed system and receiver before ordering; vehicle year, make and model alone do not identify the correct aftermarket transmitter.

EXCALIBUR AL SYSTEMS

- AL-1670-B
- AL-1870-3DB

EXCALIBUR RS SYSTEMS

- RS-270
- RS-271
- RS-272

EXCALIBUR RS SYSTEMS

Replacement Remote References

The original listing identified **118, 123, 1415, 1416 and 1510** as related replacement applications. For an installation using one of these models, verify receiver compatibility before selecting the supplied 1415 replacement. These numbers are compatibility references, not additional remotes included with the order.

Product Specifications — Actual Remote Supplied

Original Model: Excalibur 1417 — Discontinued

Remote Shipped / MPN: Excalibur 1415

1415 FCC ID: ELVNTQE

1417 FCC Reference: ELVNTQE

Batteries: Two CR2016 Included

Condition: Brand New

Quantity: One Remote

Programming: Required

Programming and Receiver Requirements

The supplied 1415 must be programmed to a compatible, functioning system already installed in the vehicle. Refer to the separate **Programming Instructions** tab. Have all transmitters intended to operate the system available before starting.

Video Support: Visit the [Access 1 Alarm & Audio YouTube channel](#) for available videos.

Programming Instructions

Excalibur 1415 Replacement Remote Programming

Replacement supplied for the discontinued Excalibur 1417

Standard Programming: This method for additional or replacement transmitters does not affect the Unauthorized Transmitter Alert (UTA) feature. Have all transmitters intended to operate the system available before beginning. Locate the installed system's Valet Switch.

1. **Ignition.** Turn the ignition ON.
2. **Enter Learn Mode.** Within **5 seconds**, press the **Valet Switch five times**.
The siren/horn briefly sounds to confirm the system is ready to learn a transmitter code.
3. **Transmit.** Press the **LOCK button** on the replacement remote. The siren/horn chirps once to confirm the remote was learned.
4. **Timeout.** If no transmitter code is received within **10 seconds of entering learn mode**, the learning process exits automatically.

After programming, turn the ignition OFF and test the supported remote functions. Consult the installed system's manual if its response differs from the routine above.

Owner's Manual: Look for the attachment, usually to the right of the product image.
