Short Description
Python 1-Way 5-Button Remote Control

Description

Brand NEW Python 7154P 1-Way 5-Button Replacement Remote Control Transmitter For The 7152P, 7153P and 7154P Remotes.

This NEW Python 7154P replacement remote control is the standard 1-way remote control for many of the Python systems such as the 4106P and 5106P systems or the companion remote control for the Responder 2 -way systems 4206P and 5206P. Looking for a replacement Python remote control for your system or just need an additional remote control? Buy brand new from Access 1 Alarm and Audio!

Have the older systems with the 7152P and 7153P remote controls? This is the new and improved version of those remote controls. This is Python's 3rd and final generation of this style remote control and is designed with rubber buttons, easier battery replacement and an amber LED when transmitting.

Whether you’re replacing a lost remote or adding an extra for convenience, this 7154P is the perfect solution. Shop with confidence at Access 1 Alarm and Audio — where you'll receive brand-new, GENUINE remote controls direct from the original manufacturer. No

knock-offs. No reprogrammed returns. Just authentic Python quality.

THE PYTHON REMOTE CONTROLS ARE BEING DISCONTINUED ALONG WITH THE PYTHON BRAND AND IS ON SALE AT THIS PRICE.

Why buy from us? Well, we are the experts that only believe in perfection, from the quality of our images to the accurate description in each and every listing.

Programming Your Remote Control

Note: Make sure the system is disarmed, and the Control Center (windshield mounted antenna) LED is completely OFF for a minimum of 60-seconds prior to beginning the remote pairing process.

Preparing the system

1. Open drivers door
2. Turn the ignition ON.
3. Within 10-seconds, press and release once, then press and hold the system’s Control Center (The Windshield Mounted Antenna)Valet button. The status LED begins flashing and the siren/horn (if connected) sounds to confirm the system is ready for pairing.
4. Release the Control Center's Valet button.

Pairing the remote control

1. Press and hold the "f" button (approximately 8-seconds)
2. Wait for the Transmit LED to light solid and the remote to beep. Release the "f" button
3. Press the "REMOTE START" button for 1 second. The transmit LED will blink 3 times and beep 3 times.
4. Within 5 seconds, press the "LOCK" button. The vehicle horn will honk. You have now successfully learned the remote to the vehicle remote start and keyless entry system.
5. Press the "f" button two times to exit learn routine on the remote. The transmit LED will turn off and exit tone will sound.
6. Turn the ignition OFF and WAIT approximately 60 seconds.

Note: 2-Way remotes will emit tones and provide visual confirmation that the remote has successfully paired with the system. 1-Way remotes do not offer pairing confirmation.
