Description

Directed Electronics 520T Backup Battery System

The Directed Electronics 520T Backup Battery System adds an additional layer of protection to compatible vehicle security systems by keeping the alarm system active even if the vehicle's main battery is disconnected during a theft attempt. Designed specifically to provide backup power to the security system's control module, the 520T helps maintain critical alarm functions when power interruption occurs.

The 520T is an excellent upgrade for vehicles requiring enhanced anti-theft protection and is commonly used with Viper, Python, Clifford, Avital and other compatible Directed Electronics security systems. Compact and reliable, the backup battery system helps improve overall security system effectiveness and provides added peace of mind against tampering or battery disconnection attempts.

Installation Note: Professional installation available.

Warranty: Includes a 1-year manufacturer warranty.
