Viper 7117V 1-Button 1-Way Remote Control

**Description**

## Brand New Viper 7117V Replacement 1-Button 1-Way Remote Control. Replaces the Discontinued 7111V and 7116V

The Viper 7117V 1-button remote control transmitter is the newest generation 1-button 1-way remote control featuring up to 1/4-mile operating range. It comes standard with the Viper 4119V and D9117V remote start systems and serves as the current replacement for the discontinued Viper 7111V and 7116V remote controls originally supplied with the Viper 4115V and 4118V systems. Whether you're replacing a lost or damaged remote or adding an additional transmitter for convenience, the Viper 7117V delivers reliable performance and compatibility with a wide range of Viper and Directed Electronics remote start systems.

Purchase with confidence from Access 1 Alarm & Audio, Cleveland, Ohio's premier mobile electronics shop. Every Viper 7117V remote control sold by Access 1 is a genuine

Viper transmitter sourced directly from the original manufacturer. No knockoffs, no refurbished units and no reprogrammed returns—just authentic Viper quality backed by knowledgeable support and years of experience.

**Compatible Ready Remote Systems**

- 4113R

**Compatible MESA Systems**

- 4415M

**Programming Information**

A working control module must already be installed in the vehicle before ordering this remote control. Programming instructions are included and require access to the vehicle's valet/programming switch. Video programming assistance is available through our YouTube channel.

If you have an older system that uses a separate programming button then the windshield mounted antenna control center with the integrated blue LED and programming/valet button, we recommend adding a replacement valet switch to your order before attempting remote programming.

Please contact us if you have any questions regarding compatibility or programming.

## Programming Instructions

**Note:** Make sure the system is disarmed, and the LED is off a minimum of 60-seconds prior to beginning the remote pairing process.

Preparing the system

1. Open drivers door
2. Turn the ignition ON.
3. Within 10-seconds, press and release the valet and programming button once, then press and hold it. The status LED begins flashing and the siren/horn (if connected)

sounds to confirm the system is ready for pairing. Let go of the programming button.

4. Press the "REMOTE START" button of the 7117V transmitter. The vehicles horn/siren will honk if connected. You have now successfully learned the remote to the vehicles remote start system.
5. Turn the ignition OFF and WAIT approximately 60 seconds.
