Price: $109.99

Short Description

DISCONTINUED: The Automate 7351A 2-way Responder LE remote has been replaced by the genuine **Viper 7254V**. Orders from this listing receive the **replacement for the Automate 7351A**, not the original 7351A. **$109.99 with FREE U.S. shipping.**

Description

Automate 7351A 2-Way Responder LE Remote Control Replacement

The original **Automate 7351A 2-way Responder LE remote control** has been discontinued and is no longer manufactured.

If you need a replacement for your Automate 7351A, orders placed from this listing

receive the genuine **Viper 7254V**, the current replacement remote for compatible systems originally using the Automate 7351A.

Automate 7351A Discontinued — Viper 7254V Replacement Ships

The **Automate 7351A** has been discontinued and is no longer manufactured. The current replacement for compatible systems is the **Viper 7254V 2-way Responder LE remote control**.

The replacement provides 2-way Responder LE functionality when used with a compatible Automate, Viper, Python or Clifford remote-start/security system.

IMPORTANT: This listing is for the replacement for the discontinued Automate 7351A. Orders placed from this page will receive the genuine Viper 7254V shown in the product image. You will not receive an original Automate 7351A.

AUTOMATE 7351A & OTHER RESPONDER LE REPLACEMENT MODELS

The genuine Viper 7254V is the replacement remote being shipped with this Automate 7351A listing.

Automate 7351A Replacement Remote Information

The remote supplied with this Automate 7351A replacement listing is a brand-new, genuine **Viper 7254V 2-way Responder LE remote**.

The replacement features five rubberized buttons in a slim ergonomic housing and provides 2-way confirmation when used with a compatible remote-start or vehicle-security system.

Although the replacement carries the Viper name, it is designed for compatible Directed systems that originally used the **Automate 7351A** and related Responder LE remotes.

Automate 7351A Compatibility Information

If an Automate 7351A previously operated your system, then you already know the Viper 7254V is compatible with that system.

- If you are replacing a different model remote, compatibility is determined by the actual Automate, Viper, Python or Clifford remote-start/security system installed in the vehicle.
- On certain systems, compatibility can depend on the **Control Center / Antenna**.
- *** Models marked with an asterisk require a new antenna. Contact Access 1 Alarm & Audio to purchase the antenna.**
- If you are unsure which remote your system requires, contact Access 1 Alarm & Audio before ordering. We can help identify the correct replacement remote.

Programming Instructions

7254V Programming Instructions

Responder LE 2-Way SuperCode Remote Control

The following Learn Routine is used to program this replacement transmitter to the system. Programming is performed using the button on the vehicle's windshield-mounted **Control Center / ANTENNA**.

1. Open a door.
2. Turn the ignition **ON**.
3. Press, release, and then press and hold the programming button on the **Control Center / Antenna**.
4. The Control Center LED flashes and the siren or horn sounds one time to confirm the system is prepared. Release the button and proceed to the remote-learning procedure below.
5. Press and hold the **FUNCTION button** until the transmit LED turns on, then release the button.
6. Press and hold the **REMOTE START button** until the transmit LED flashes **3 times**, then release the button.
7. Press the **LOCK button** until the siren or horn sounds to confirm the remote has been learned.
8. A sequence of chimes should sound from the remote to confirm successful pairing. If the chimes are not heard, make sure the system is still prepared for learning and repeat the remote-learning procedure.
