

Python 489P Replacement Remote Control - Genuine Python 7341P 2-Way LCD

Brand: Python
Product Code: 489P-7341P
Stock: 4
UPC: 093207064838
FCC ID: EZSDEI489
MPN: 489P-7341P
Location: Cleveland, Ohio

Price: \$119.99

Short Description

Replace your discontinued **Python 489P 2-Way LCD remote** with a brand-new, genuine **Python 7341P 2-Way LCD replacement remote control**. FCC ID EZSDEI489. Compatible with select Python and Directed-family systems. **\$119.99 with FREE U.S. shipping.**

Description

Python 489P Replacement Remote Control

Replace your discontinued **Python 489P 2-Way LCD remote control** with the genuine **Python 7341P 2-Way LCD remote**. The Python 7341P provides 5-button operation, LCD status feedback and compatibility with select Python and other Directed-family security and remote-start systems.

This listing includes one brand-new, genuine **Python 7341P remote control**. You will

receive the 7341P, not the discontinued 489P.

PYTHON 489P DISCONTINUED The original Python 489P remote control is no longer manufactured.

Replacement Supplied: Genuine Python 7341P 2-Way LCD Remote Control

\$119.99 FREE U.S. SHIPPING

Brand-New Genuine Python Remote Control

GENUINE PYTHON Original manufacturer replacement remote

2-WAY LCD Visual status feedback from compatible systems

5-BUTTON CONTROL Security and remote-start functions where supported

489P REPLACEMENT Python 7341P for compatible systems

Genuine Python 7341P Replacement for the 489P

If your original remote was a **Python 489P**, this listing provides the genuine **Python 7341P** replacement for supported systems.

The 7341P is a 2-way LCD remote designed to communicate with compatible vehicle security and remote-start systems. Its LCD display provides visual feedback when supported commands are acknowledged by the system.

Although this is a Python-branded remote, compatible Directed-family systems may use remotes originally sold under Viper, Clifford, Automate and Avital branding. The installed receiver and system determine compatibility.

Python 7341P Replacement Remote Compatibility

The genuine Python 7341P can replace select remote controls originally sold under the following brands when paired with a compatible security or remote-start system.

VIPER 489V 7341V 7345V
PYTHON 489P 7341P
CLIFFORD 489X 489XD 7341X 7345X
AUTOMATE 7344A
AVITAL 7345L 7353L

Python 7341P Remote Specifications

- 5308V
- Responder 350
- 5000
- 5002

PYTHON

- Responder 460
- 3305P
- 5305P
- 900
- 902

CLIFFORD MATRIX

- Matrix 1X
- Matrix 10.5
- Matrix 12.5X
- 3305X
- Matrix 5305X
- 5305
- Matrix 5325X

AUTOMATE

- 5305A

AVITAL

- 3305L
- 3308L
- 5305
- 5308L

MESA

- 3307VM
- 5307VM

IMPORTANT: Compatibility is determined by the installed security or remote-start system and its receiver / Control Center, not by the vehicle's year, make or model.

The Python 7341P must be programmed to the compatible system before use. Certain features depend on the functions supported by the installed system.

If you are unsure which system you have, verify the system model and receiver before purchasing.

Programming Instructions

Python 7341P Remote Programming Instructions

The following Learn Routine is used to program the **Python 7341P 2-Way LCD remote control** to a compatible system.

Prepare the Vehicle System for Pairing

1. **Door:** Open a door.
2. **Key:** Turn the key to the **ON** position.
3. **Choose:** Within 5 seconds, press and release the **Valet/Program button** the number of times corresponding to your system in the table below. Then press the Valet/Program button one more time and **hold it**. The LED flashes the same number of times as the selected channel and the siren chirps to confirm the selected channel. **DO NOT release the Valet/Program button.**
4. **Transmit:** While continuing to hold the Valet/Program button, press the **LOCK button** on the remote. The unit chirps to confirm that the remote has been paired to the receiver.
5. **Release:** Once the remote control has been paired, release the Valet/Program button and remove the key.

Valet/Program Button Selection

1 Time	Python 5305P
7 Times	Python 3305P / Responder 460

Important: The number of Valet/Program button presses is determined by the Python system being programmed. Use **1 press for the 5305P** or **7 presses for the 3305P / Responder 460**.

Note: Refer to the owner's guide for remote-control operation after programming is complete.
