An Aftermarket Smartphone Option After mbrace

Yes, on compatible SLK Class vehicles. This package includes the VSM550 Pro interface. SmartStart is an independent aftermarket service, not a reactivation of mbrace. Earlier Mercedes-Benz telematics were affected by the 3G network shutdown in 2022. Factory connected-service availability varies by model year and equipment. SmartStart requires an active plan, phone internet access and compatible vehicle cellular coverage; it does not replace every factory service or emergency-call function.
