

ESCORT Redline Ci 360c Custom Installed Radar & Laser System

Brand: Escort Radar

Product Code: REDLINE-CI-360C

Stock: 1

UPC: 737795004967

MPN: 0100049-6

Location: Cleveland, OH

Price: \$4,299.99

Short Description

The **ESCORT Redline Ci 360c** is ESCORT's most advanced custom-installed radar and laser defense system, combining **front and rear M14 radar receivers with five VX Laser Shifters** for complete radar and laser protection. Legendary Redline detection range, Blackfin DSP, TotalShield stealth, GPS AutoLearn, advanced false-alert filtering and connected Drive Smarter technology deliver ESCORT's ultimate completely integrated detection system. **\$4,299.95 + professional installation.**

Description

ESCORT Redline Ci 360c Custom Installed Radar & Laser System

The **ESCORT Redline Ci 360c** is ESCORT's most advanced custom-installed radar and laser defense system, combining legendary Redline detection performance with complete front-and-rear radar coverage, integrated laser protection and a completely concealed installation.

Unlike the front-radar-only Redline Ci-c Platform, the complete **Redline Ci 360c includes front**

and rear M14 radar receivers plus five VX Laser Shifters. Blackfin DSP, SDR filtering, GPS AutoLearn, TotalShield stealth technology and connected Drive Smarter features make this ESCORT's comprehensive custom-installed radar and laser solution.

Redline Ci 360c — The Complete System

This is the complete ESCORT Redline Ci 360c system with front and rear radar detection AND integrated laser protection.

- **Front M14 radar receiver — INCLUDED**
- **Rear M14 radar receiver — INCLUDED**
- **Five VX Laser Shifters — INCLUDED**
- Supports up to six VX Laser Shifters
- Blackfin DSP and SDR signal processing
- TotalShield stealth technology
- Professional custom installation required

Legendary Redline Range — Front & Rear

The Redline Ci 360c uses **dual M14 radar antennas coupled with Blackfin DSP** to deliver ESCORT's highest level of custom-installed radar detection range and sensitivity.

With dedicated radar receivers installed at both the front and rear of the vehicle, the Redline Ci 360c provides comprehensive **360° radar coverage and directional threat awareness** without requiring a detector mounted to the windshield.

Five VX Laser Shifters Included

The complete Redline Ci 360c includes **five redesigned VX Laser Shifters**. ESCORT engineered these compact sensors to provide integrated laser protection while allowing installers greater flexibility when positioning the components on modern vehicles.

ESCORT states that the five-head system can support **up to six VX Laser Shifters**, allowing the

system to be configured around the requirements and dimensions of compatible vehicles.

Advanced False-Alert Filtering

Today's vehicles are surrounded by radar-based technology including **blind-spot monitoring (BSM)**, **collision-avoidance systems (CAS)** and other driver-assistance electronics that can generate unwanted radar alerts.

ESCORT combines **DSP and SDR technology** to provide advanced filtering against these unwanted signals. The goal is exceptional detection performance without constantly distracting the driver with irrelevant alerts.

TotalShield™ True Stealth Technology

ESCORT's **TotalShield technology** provides true stealth performance against radar-detector detectors (RDDs). Combined with a completely concealed custom installation, the Redline Ci 360c provides exceptional discretion while maintaining Redline radar performance.

GPS AutoLearn™ Intelligence

ESCORT's **GPS-based AutoLearn technology** recognizes frequently encountered stationary false-alert locations. As the system learns your regularly traveled routes, repeated stationary false alerts can be automatically rejected to provide a quieter everyday driving experience.

Drive Smarter®, Bluetooth & Dual-Band Wi-Fi

The Redline Ci 360c connects with ESCORT's **Drive Smarter app** through Bluetooth, providing supported connected driving features, shared radar and laser alerts and convenient device settings management.

Dual-band Wi-Fi provides supported over-the-air software updates, an especially valuable feature for a permanently installed system because the concealed components do not need to be removed from the vehicle for routine software updating.

Apple CarPlay® & Android Auto™

Through ESCORT's Drive Smarter ecosystem, compatible **Apple CarPlay and Android Auto** displays can show supported shared radar and laser alerts, red-light and speed-camera locations and crowdsourced road information directly through the vehicle's compatible infotainment display.

Completely Customizable Installation

The Redline Ci 360c is designed from the ground up as a **professional custom-install system**. Radar receivers and laser components are discreetly integrated into the vehicle while the compact display and controller can be positioned inside the cabin based on the design of the vehicle and customer preference.

Every vehicle presents different mounting locations, bumper construction, interior layouts and installation requirements. Access 1 evaluates the specific vehicle to determine proper component placement while maintaining a clean, factory-style finished appearance.

Redline Ci 360c Performance

- Front M14 radar receiver
- Rear M14 radar receiver
- 360° radar coverage
- Blackfin DSP processing
- SDR signal-processing technology
- Advanced BSM and CAS false-alert filtering
- TotalShield stealth technology
- GPS AutoLearn intelligence

Complete System & Connectivity

- Five VX Laser Shifters included
- Supports up to six VX Laser Shifters

- Bluetooth connectivity
- Dual-band Wi-Fi
- Drive Smarter compatibility
- Apple CarPlay compatibility
- Android Auto compatibility
- Over-the-air software updates
- Customizable display and controller placement

ESCORT Redline Ci 360c — \$4,299.95 + Professional Installation

Professional installation is required and priced separately. Installation pricing depends on the vehicle, component locations and complexity of integrating the front and rear radar receivers, laser shifters, display, controller and system electronics.

Contact **Access 1 Alarm & Audio** at **(216) 252-3000** for a vehicle-specific Redline Ci 360c system and professional installation quote.

\$4,299.95 is the product price; professional installation is required and additional. Installation pricing varies by vehicle and system configuration. Radar detector and laser countermeasure laws vary by jurisdiction. Vehicle owners are responsible for understanding and complying with applicable laws where the vehicle is operated.
