A few things to confirm.

For the **2011+ Dodge Charger**. We’ll check your exact year, trim, ignition type and factory equipment before booking. Standard operation uses your factory fob’s reception range; surroundings affect range, and this package adds no two-way remote confirmation.

Comfort & Convenience Controls

Heated Seat Activation and Rear Window Defogger Activation only function with the **OEM touchscreen radio package**, corresponding factory equipment and supported vehicle configuration.

Installed here. Backed here.

Your professionally installed system includes a **five-year system warranty** and **lifetime installation labor coverage for the original purchaser while they own the vehicle**, subject to warranty conditions.

No aftermarket remotes are included. Optional remote controls have one-year coverage; factory fobs retain their applicable original coverage. SmartStart hardware and service terms are separate. See the Warranty tab for complete requirements and exclusions.
